

Enterprise Migrant Project ABSTRACT

Cambridge Academies, a non-profit 501(c)(3) corporation, located in Modesto, California, serves disadvantaged and at-risk individuals and families **in partnership** with businesses, non-profit, educational, government and faith-based organizations. The **Enterprise Migrant Project** will serve 54 residential farmworkers and their families per year **online** and at sites provided by Modesto Junior College and partners in two Northern California San Joaquin Valley Counties.

The three program goals, objectives, outcomes and activities **address the documented needs** of local and regional migrant families: **GOAL 1:** Offer a basic literacy and job preparation program to project participants, which also includes a path to college certification and degrees in technology fields.

OUTCOMES: 69% of project participants complete their basic education and 80% have the preparation and support necessary to pursue vocational, career and employment goals. **Goal 2:** Offer participants job readiness and job and/or business preparation opportunities. **OUTCOME:** Participants increase their motivation to achieve educational, work and life goals and acquire the knowledge and receive support to start their small businesses, if they wish. **Goal 3:** Provide the necessary coaching, connections, preparation and support to help migrant graduates prepare for and obtain high-demand jobs in the area. **OUTCOME:** 80 percent of participants improve their lifestyles through the employment and education opportunities, support and training facilitated by the HEP program.

Competitive Priority 1 is addressed in the Application. **PROJECT SERVICES:** The program services are based on a hybrid online and site-based approach that implements two interventions that have received WWC approval without reservation, **Intelligent Tutoring System (ITS)** and **Online Mathematics Homework**. Program staff and partners will help participants achieve HSE certification and post-secondary education, increase ESL competency, workforce preparation and subsequent employment. The project evaluator, will track and report the *Evidence of Promise* findings.
